

Don't vote by slate box!

The ballot for the Times Tech unit council election is weird. ***Both sets of officer candidates have agreed — this isn't great!*** The layout is confusing, and could clearly lead to bias.

Your Union for You (Tim, Michelle, and Vicki) recommend that you think through your choices and take your time. We don't even recommend that you vote for OUR SLATE by using the slate box!

Below we have a breakdown of what each slate box means, to help you understand the ballot layout. These are **example ballots** and you shouldn't use them for anything other than reference!

Not voting by slate: Take your time!

By not selecting either slate box, you may choose any combination of candidates you want. You can even mix and match officers (but we don't recommend it!)
